Dear Peter

Thank you for the work you have just completed in constructing an en-suite shower room and utility room, and another bedroom, for us.

We were so impressed with the lack of 'mess' (particularly when you were cutting through the bathroom wall to extend the utility room area), the way you kept us informed about the progress of the work, and the way everybody worked so hard to keep to your finish date.

We are really pleased with the end result and the excellent quality of the work you have carried out, and would have no hesitation in recommending your company.

Regards
