*During the last ten years, we have commissioned Peter Woodrow Builders to undertake a number of projects and we have always been impressed with firstly, their quality and workmanship which is exceptional, and secondly, their enthusiasm for their work. All of these projects have been completed on time, within the agreed costs and their management of, and affinity with, other trades has also been to the same very high standard.*

*We are always willing to recommend Peter Woodrow Builders as a firm committed to delivering very high quality work to programme and for a fair and reasonable price.*
